## Basis of preparation and other information

This presentation has been prepared as follows unless otherwise stated:

- We present certain financial measures on a constant currency basis in U.S. Dollars. These constant currency measures eliminate the effect of fluctuations in the exchange rates we use in the translation of our non-U.S. denominated sales into U.S. Dollars by assuming that exchange rates were constant in all periods. For financial information for the period ended 31 December 2024 and 2023, we use the budgeted constant currency rate for the year ended 31 December 2024, which is prepared on a forward-looking basis. We additionally show financial information for the period ended 31 December 2024 at the actual exchange rates calculated by taking the income statements of foreign

subsidiary undertakings translated into U.S. Dollars at average exchange rates and the net assets of these companies translated at exchange rates as of 31 December 2024.

- We present certain financial measures on a Proforma basis including acquisitions and excluding disposals from the time of acquisition or disposal along with the prior year comparatives. This means the 2023 figures have been adjusted to exclude the results of Profiles and Media Health for six months, and to exclude the results of Vivvix (Ad Intel) for ten months.
- We present revenue on a gross basis, including intercompany revenue between divisions.
- We or our affiliates may from time to time seek to retire, repurchase or sell our outstanding debt through cash purchases, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or sales will depend on market conditions, our liquidity requirements, contractual restrictions and other factors, and the amounts involved may be material. We continue to monitor the maturities on our debt and may consider opportunistic refinancing of some of our debt in the future.
